If you are using oral contraceptives, it is important that you understand that antibiotics (and some other medications) may interfere with the effectiveness of oral contraceptives. Therefore, you will need to use mechanical forms of birth control for one complete cycle of birth control pills, after the course of antibiotics or other medication is completed.

I understand the importance of a truthful and complete health history to assist my oral surgeon in providing the best care possible. I have had the opportunity to discuss my health history with my oral surgeon.
